

Security Tips for Investors

Your financial security is our top priority. At Absolute Broking, we encourage all investors to stay vigilant and adopt best practices to safeguard their accounts and personal data. Here are essential security tips to help you trade safely and confidently.

1. Keep Your Credentials Confidential

- Never share your login ID, password, or OTP with anyone—not even with company employees.
- Avoid storing passwords on browsers or writing them down where others can access them.

2. Use Strong and Unique Passwords

- Use a combination of letters, numbers, and symbols for your trading and banking passwords.
- Change your passwords periodically and avoid reusing old ones.

3. Enable Two-Factor Authentication (2FA)

- Always activate 2FA for added security during logins and transactions.
- Use only trusted apps like Google Authenticator or mobile OTPs.

4. Beware of Phishing Scams

- Do not click on suspicious links or respond to emails/SMS requesting personal or financial details.
- Verify any unusual communication by contacting our official support channels.

5. Secure Your Devices

- Keep your computer and mobile devices updated with the latest antivirus and OS patches.
- Avoid logging in to trading platforms from public Wi-Fi or shared devices.

6. Monitor Your Accounts Regularly

- Check your transaction statements and ledger frequently for any suspicious activity.
- Report discrepancies immediately to our compliance or support teams.

7. Use Official Channels Only

- Access our services only via absolutebroking.com or our verified mobile apps.
- Avoid third-party apps or websites claiming to offer broking services.
